INTERNSHIP

TekPages IT [↗](#)

May 2025 – Aug 2025

Full Stack-Intern

Bangalore, India

- Supported **cloud-based application deployment on AWS**, working with **EC2, S3, and Linux-based environments** under senior engineer guidance.
- Assisted in **server configuration, application hosting, and runtime monitoring**, gaining exposure to real-world **production environments**.
- Supported testing, debugging, and issue observation during application deployment and runtime.
- Participated in team discussions to understand **deployment processes, CI/CD basics, and operational workflows**.

PROJECTS

DimeWise – Finance Management App [↗](#) |

Mar 2025 – Apr 2025

- Designed and developed a full-stack finance management application with **secure authentication and role-based access control**.
- Deployed a cloud-hosted web application and gained hands-on exposure to **environment setup, runtime behavior, and deployment workflows**.
- Integrated **Supabase PostgreSQL** with **Prisma ORM** for efficient data handling and access management.
- Built responsive, mobile-first UI components and followed **Agile practices** with proper technical documentation.
- [Live site here](#)

Frontend Applications Suite [↗](#) |

Feb 2025 – Mar 2025

- Developed and deployed multiple frontend applications focusing on **UI responsiveness and performance optimization**.
- [GithubLink](#)
